Border Union - Judge Mr A Felters

It was quality over quantity today. It was pleasing to find so many that could have won top honours
The weather was kind and we were third in the ring on the second day of the show. Lots of smells
The grass caused problems with movement, many bouncing and skipping, though most did settle
Temperaments were excellent
Coats in general were of correct texture and clean
A couple of mouths did not please
Front movement needs to be watched
