

Leeds – Judge Mr H Ogden

Great to be back with you all since 2017 and appreciated the sporting atmosphere. Have just one aspect that concerned me, namely since when was Cairn a short legged cob, even allowing for the grass? Five absent from the 29 exhibits.

PD (1)

1 Munday's Lentrica Mystic Warrior. 11 mths, immediately impressed as he stood his ground, taking it all in and standing well forward so as to naturally display his medium leg and back length, excellent head and eye with a definite stop and strong muzzle, medium neck, level, good bone, feet correctly placed, good in rib with depth, harsh, dark brindle jacket, well turned hindquarters, well placed tail and carriage, absolutely sound with a free-flowing stride and with reach and drive that challenged his handler. An exciting youngster with so many breed specifics all combining to annex Res DCC as well as BPIB.

PGD (2, 1)

1 Dennis, Goddard & Waites' Good Times Ahead With Oudenarde. Bang on 2 yrs, wheaten, correctly small and slightly rounded head with a definite stop, eye rather small, good mouth and teeth, muzzle a touch narrow, good neckline, so clean in front with a deep well sprung rib, so outgoing on the move, albeit a fraction long, with an exceptional, sound action that was a joy to watch, excellent jacket.

LD (4, 1)

1 Shopland's Cherrycrack Moonreakur. 22 mths, what I loved most about him was that, with his well forward stance, he gave me daylight underneath him, very good head with an excellent eye set well apart, and like a medium, dark almond, body of medium length as with his neck, good balanced angles, harsh double coat, so sound on the move with correctly angled tail carriage, will take some beating with more maturity.

2 Brookes' Seveek Danish Delight At Zetamaz. 21 mths dark brindle, much to like, well placed facial features to give typical expression, well ribbed and strong loin, overall of a sturdier type, showing less daylight so as to rather bowl along in front but with good propulsion off a firm hock and correct tail carriage.

3 Lamb & Saltmarsh's Birselow Come Dancing With Macmoon OSW JW ShCEx Sh.

OD (4)

1 Firth, Firth & Firth's Ch Cairngold Chico JW. 4 yrs, red, relatively small head with breadth to slightly rounded skull plus excellent features and proportions, especially in ear and eye, mouth with good teeth, not in best jacket but of good texture and with undercoat, correct length, correct clearance, propelled himself so well on the move with reach and drive with a correctly angled tail. DCC.

2 Felters & Rumens' Landbuck Kingsman. Just on 3 yrs, described as red brindle, a glorious type so as to fill the eye, well furnished head, perfect ears, dark hazel eye, strong muzzle with large teeth, harsh weather resistant coat, correct length of back, good outline and tail carriage on the move, good drive in rear but weak in front, particularly at pastern.

3 Harrison's Carradine Whiskey Oscar.

VD (1)

1 Lamb & Saltmarsh's Renshaw There And Back Again Under Macmoon ShCM. Rising 11 yrs, truly amazing, black double coat fitting the 'shaggy not shabby' description, glorious head with breadth of skull and strength of muzzle plus excellent bite with large teeth all present and correct, could draw a line through tip of ear via centre of dark eye to his black nose, balanced angulation without exaggeration, level, well ribbed with depth, albeit a touch heavy now, gave a demonstration of sound, active movement with balanced reach and drive, had fully expected him to be titled. BVIB.

SBD/B (2, 1)

1 Jobling's Ariom Full Of Sass. 16 mth quality youngster, lovely feminine head with some breadth of skull, ideal eye and ears, correct body length and degree of tail carriage, excellent jacket, well presented, so sound with reach and drive, her first-timer handler grew in confidence, accepting all the advice given; above all else she can relax knowing that she has bred a 'good un' and they have a great future together as they both mature on.

MPB (2)

1 Bubb's Wandris Strike A Light. 6 mths, golden brindle, quality, unphased baby, desirable, small, feminine, slightly rounded head, prefer larger eye, enviable ears, definite stop, well set on neck, excellent length/height proportions, well turned quarters, youthfully high angled tail carriage, so sound and free flowing. One to watch. BPB.

2 Percy's Winetta Frankly My Dear. 7 mths, loved her dark almond eye of medium size, albeit set in a narrower head and muzzle, good in neck and angles, well ribbed, plenty of scope about her to mature on to advantage.

PB (1)

1 Lund, Lund, Lund & Long's Lentrica Hocus Pocus By Jorvikairn. 10 mths, described as sable/gold/brindle, pretty headed with good, well placed facial features, medium neck into a well angulated shoulder, excellent back end, harshly coated, can just firm in front, coming on, but drove off a firm hock to give a typical outline as she circuited, very promising.

JB (3)

1 Soper's Elitecharm Showgirl. 15 mths, so feminine and typy and unexaggerated so that all is coming together already for this teenager, broad skull, excellent eye, definite stop, good proportions, well ribbed, harsh coat, hock well let down so as to propel herself forward, strode out well, one with an assured future if she simply continues along these same lines.

2 Joblin's Ariom Full Of Sass.

3 Shannon & Storr's Doonrae Rebel Rebel Among Brenndarcy.

PGB (2)

1 Hooton & Hughes' Penticharm It's My Party. Bang on 3 yrs, wheaten brindle, loved everything about her, attractive head with excellent eye and ear, medium neck into well laid shoulder, good proportions of length/height with enough daylight beneath, good jacket, held her shape on the move and came on so well, bred in the purple and Birselow sired with every prospect of quickly moving up the ranks.

2 Petts' Rasken's Joan Jett For Doonrae (Imp Swe). 20 mths, a wheaten, albeit started out life as a red brindle, showing lots of promise, lovely eye, small, well set ears, good neckline into a well

constructed body, excellent backend so as to push forwards, just that bit longer cast, being a teenager, that maturity will address.

LB (4)

1 Firth, Firth & Firth's Cairngold Chiquitita. Two and a half yrs, guess I was the only one present unaware I was putting up litter sisters, as sired by the DCC. I rated them both as of CC quality, has breed type in abundance, lovely head with well placed features, strong muzzle, good neck and forehead with some width, correct length, balanced rear angulation, ideal 60% tail carriage, moved out soundly once settled. Res BCC.

2 Clarke's Cairngold Chakira White. Two and a half yrs wheaten of such quality, understandably of the same excellent type, fabulous head that is correctly small and in proportion to her body, eye and ears correctly spaced, breadth in skull, definite stop, strong muzzle, good bone and feet, clean fronted, may have just been outperformed by her slightly more forward sister but well capable of gaining her revenge being also of CC standard.

3 Bubb's Hjhoo's How Easy Hjo Please Me (Imp Swe).

OB (5)

1 Kinton's Cloverbrook Unbreakable At Woodthorpe. Two and a half yrs grey brindle, she ticked so many of my boxes, not least with her textbook proportions, the way she stood 'well forward' so ensuring plenty of daylight beneath her and her natural, shaggy appearance, expressive head that is broad and slightly rounded, well carried ears, excellent eye, definite stop, strong muzzle, medium neck, well angulated, harsh double coat, so beautifully balanced on the move with reach and drive and pushing off her hocks, bred in the purple and learned later I previously awarded her sire BOB. BCC and BOB.

2 Lund & Lund's Caringold Brandy Snap By Jorvikairn. 4 yrs, red brindle, another 'clone', being litter sister of the DCC, so feminine and typy with 'scope', so nothing is overbuilt, small, well set ear, good stop and muzzle, eyes a little close, good in neck and forehead, level, correct length and tail carriage, excellent double jacket, well bodied with firm loin, moved out well and true. CC quality.

3 Smith's Cannwood Misty Dawn At Gethlee.
