Southern Counties- Judge Mr J Horswell

This charming breed must be one of the most natural looking breeds in the terrier group, and I thought presentation today got the balance right between that natural look and not unkempt. A few very tight bites. It's a shame the lovely BOB didn't compete in the group. I did notice that a few exhibitors having lifted their dogs onto the table correctly then lifted them by the tail to stack them. I suspect that they were unaware that they were doing this – we just all need to be careful in this modern age with so many ready to jump on anything.
